PROFESSIONAL SUMMARY

Senior Full Stack Developer with 4+ years of professional software development experience and more than 10 years of IT, infrastructure, and network engineering background. Specialized in .NET Core (C#), Go (Golang), ABP Framework, and Next.js, with strong expertise in microservices architecture, AWS serverless solutions (Lambda, SQS), and cloud-native systems. Strong background in network management and security, enabling the design of scalable, secure, and cost-efficient systems.

TECHNICAL SKILLS

Backend & Architecture: .NET Core, C#, Go (Golang), ABP Framework, Microservices, REST API, N-Layer Architecture, Domain-Driven Design, Node.js, Express
Frontend: TypeScript, Next.js, React, Angular, JavaScript (ES6+), Tailwind CSS, Bootstrap
Cloud & DevOps: AWS Lambda, AWS SQS, Serverless Architecture, Docker, Docker Compose, Kubernetes (K8s, OpenShift), CI/CD (GitHub Actions, Jenkins)
Databases & Messaging: PostgreSQL, MSSQL, MySQL, MongoDB, Couchbase, RabbitMQ, Azure Service Bus, Redis, WebSocket
Infrastructure & Security: Network Management (Palo Alto, Fortigate), Firewall, VPN, L3 Routing, Active Directory, SIEM

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer | SHFT — March 2024 – Present (Remote)

- Developed and maintained high-traffic backend services using .NET Core and microservices architecture
- Designed and implemented RESTful APIs focused on scalability and performance
- Built modern and scalable frontend applications using Next.js and TypeScript
- Implemented AWS Lambda and SQS based serverless workflows and event-driven systems
- Improved system reliability through logging, monitoring, and deployment automation

Software Developer | ■techrobotics — February 2023 – August 2023

- Developed enterprise-level applications using ABP Framework and .NET
- Managed microservice deployments with Docker and Kubernetes (OpenShift)
- Designed and maintained CI/CD pipelines using GitHub Actions
- Improved code quality through unit testing and automation

Software Developer | WifiSpot Network Management Solutions — November 2022 – February 2023

- Developed backend services for network management panels
- Built REST APIs using Node.js and .NET
- Integrated software systems with network infrastructure components

Network System Engineer | Do■an Trend Otomotiv — September 2022 – November 2022

- Managed corporate system and network infrastructure
- Supported secure and stable IT operations

Network Security Engineer | Teknosa — August 2021 – August 2022

- Managed enterprise network security infrastructure
- Implemented firewall, VPN, and security policies

System and Network Specialist | Arvato Supply Chain Solutions — December 2020 – October 2021

- Maintained system and network operations for enterprise environments

System and Network Manager | Do■an Hukuk Bürosu — February 2020 – January 2021

- Managed IT infrastructure and system security

System and Network Specialist | Turkish Armed Forces (TSK) — October 2015 – November 2019

- Managed secure systems and network infrastructure
- Ensured operational continuity and information security

EDUCATION

National Defense University (Milli Savunma University)
Technical Education – Network, Systems, and Security
